

CARET Legal

Redefining Excellence with CARET Legal Accounting

Reclaim time and money by moving off QuickBooks

While QuickBooks is a popular accounting software used by many businesses for various purposes, including legal accounting, there are some limitations that legal professionals may encounter when using QuickBooks.

CARET Legal

INTUIT quickbooks

Trust Accounting Compliance

Automatically manage trust compliance tasks, provide safeguards, and prevent mistakes.

—

Integrated Time-Tracking

Customization and intricate legal billing scenarios to meet the needs of legal professionals.

—

Client Cost Management

Track accounts payable by client costs and associate line items to specific matters.

—

Performance Reporting

Evaluate performance at the firm based on billable hours, time-tracking, and collected receivables by attorney.

—
